- Effective unit governance structures and procedures for compliance and integrity oversight and management, including defined accountability for compliance responsibilities
- Implementation and maintenance of clear standards of business and ethical conduct consistent with Daimler Truck corporate standards
- Oversee, maintain, and improve the quality management programs of the unit (ISO 9001)

We are looking for you, if you have:

- 1-2 years of relevant experience in Compliance & Risk Management, Data Privacy, Governance, Audit or related fields
- Ability to make decisions and solve problems by recommending proper solutions
- Ability to work independently and collaboratively across various levels and teams
- Excellent interpersonal skills with the ability to interface with all levels of management and staff
- Strong communication & listening skills
- Strong drafting and analytical skills
- Good judgement skills
- Personal authority, integrity, and ethics
- Independence, robustness, and resilience
- Knowledge of the regulations applicable to data protection (eg. GDPR)
- Good knowledge of Microsoft Office package
- A very good command of English is a must
- German is a plus
- Knowledge of ISO 9001:2015 is a plus
